

DAILY DEMOCRAT FORUM

(Successor to the Maryville Republican)

VOLUME 2.

MARYVILLE, MISSOURI, FRIDAY, MAY 31, 1912.

NO. 311.

TIME GROWS SHORT

CANDIDATES FOR OFFICE MUST FILE DECLARATIONS SOON.

OFFICES GOING BEGGING

Several Places on Both Democratic and Republican Tickets for Which There Are No Aspirants.

The would be candidates must hurry if he expects to get on the primary election ticket and in order to do so, he must declare his intention and file the same with County Clerk George Demott sixty days before the date of the primary, which will be the 6th day of June.

There are a few offices on the Democratic and Republican tickets for which there are no candidates.

On the Democratic ticket, no candidate has filed for surveyor and coroner, but it is expected that County Highway Engineer Joseph Reece will be a candidate for surveyor. There seems to be no candidate on that party ticket for coroner.

On the Republican ticket, no one has filed for State senator from this district, for representative, for judge of the north district, for surveyor, for public administrator or for coroner. For representative on this ticket, there is some talk that Herman W. Hull will again seek the place. Geo. S. Miller will probably run again for surveyor. For the other offices no one seems to be mentioned.

The following are the candidates that have filed with County Clerk Demott on the Democratic ticket:

Representative—W. B. Gex of Hughes.

Judge South District—M. C. Noland of Washington, and Tom Groves of Hughes.

Judge North District—Judge Wm. Blackford of Atchison.

Prosecuting Attorney—George Pat Wright.

County Treasurer—S. H. Williams, E. L. Wolfert, Amos Sprecher, H. H. McClurg and Jesse Joy.

Sheriff—Ed Wallace, Luke Colvin and Dudley Rice.

Public Administrator—J. F. Roelofson.

W. N. Morgan of Parnell is being mentioned by his friends as a candidate for representative on the Democratic ticket as is also Samuel Haywood of Hughes mentioned for judge of the county court from the south district on the Democratic ticket.

On the Republican side, the following have filed:

Judge South District—Pleas Schmidt of Hughes.

Prosecuting Attorney—W. E. Wiles.

Treasurer—Sheriff W. R. Tilson.

Sheriff—Martin Borrusch, Frank P. Reutliard, John Wallace and George Evans.

The office of representative is the one that is of vital interest to the people and the one that is more talked about than all others. It is generally conceded that there will be a strong effort to pass a "county unit" local option bill by the next legislature whereby the voters of a whole county can vote on the question of granting liquor license anywhere in the county. In the two last legislatures the house passed a bill of that kind, but it was lost in the senate. In the last general assembly it was defeated in the senate by the lieutenant governor sending it to a committee that was opposed to the measure, which held it up. Had it ever come to a vote it would have carried.

His brother was taken of the same disease at the time of his death and has not yet recovered.

TRAPPED FOR TWO WEEKS.

Runaway Gallatin Couple Apprehended After a Fortnight of Wandering—The Wife Forgiven.

The Gallatin man and woman who set out to take a honeymoon trip afoot on the Wabash, were found at Burlington Junction Wednesday night by the irate husband of the woman, who met them on Main street in that town. A stormy scene followed and Marshall Thacker of that town put an end to the trouble by lodging Adolphus Whit, who was with the man's wife, in the calaboose and the constable of Gallatin came Thursday evening and took him back to Gallatin.

Mrs. P. E. Croy is the woman in the case according to a story that Whit told the Burlington Junction Post, it all came about in this way:

Whit had been working on the Croy farm six miles south of Gallatin for some time. Mr. and Mrs. Croy's domestic life had not been the most tranquil and Saturday morning, May 16, they quarreled. Mrs. Croy decided to take up her abode elsewhere and started across the fields to town. Of course Whit could not see her off alone and he followed, overtaking her near town.

Then began almost two weeks of wandering about the country, the couple traveling afoot. They had been in this locality but a short time when in some way it seems that the irate husband got word of their whereabouts. He boarded the train at Gallatin and met the couple at Burlington Junction. Mrs. Croy and her husband made up and went back to Gallatin.

ELECTION IN UNION TOWNSHIP.

Will Vote on a \$15,000 Bond Issue for Good Roads Looks Favorable.

Union township will vote Saturday on a bond issue of \$15,000 to spend for roads in that township. The result of the election will be watched closely as this is the first township in the county that has voted on the proposition and should it carry, probably other townships will have bond issue to vote on.

The report from Pickering is that the issue looks very favorable and so far, there does not seem to be a very strong opposition. The voting place is at Pickering and the polls will open at 7 o'clock in the morning and close at 6 o'clock in the evening. The judges and clerks of the election are: Wm. Chambers, James Hanna, Charles Coleman, H. H. McClurg, Irvin Lock, S. C. Leech.

ACCUSED OF STEALING A WATCH

John Simons, Who Took Brass Off Of Automobile at Parnell, Now Accused of Another Crime.

John Simons who is in the county jail charged with taking brass off the John Cooper automobile at Parnell, a few weeks ago, will probably be charged with another crime, that of stealing. A 15-jewel, gold case Waltham watch was taken from Simons by Sheriff Tilson, and now there appears a Sheridan man who says that his Waltham watch has disappeared. Simons was at Sheridan a day or so before he was at Parnell, or about the time the Sheridan man lost his watch. The Sheridan man will come to Maryville to see if it is his watch.

SINGLE TAX ON LAND

REVOLUTIONARY MEASURE PROPOSED FOR ADOPTION.

CUTS OUT THE POLL TAX

Idea Is To Make Real Estate Bear the Entire Burden of Taxation, Exempting Personal Property.

An amendment to the state constitution which is to be submitted to the voters in November under the initiative and referendum is of more than usual interest and importance to the farmers. The purpose of it is to completely revolutionize the method of taxation in this state, and it is already creating much discussion and meeting with determined opposition. It will unquestionably have a "rocky road to travel" and is likely to carry measures of more merit down to defeat with it.

Below will be found the complete text of the amendment which is known as the Single Tax Amendment and its twin, the Tax Commission Amendment.

The Single Tax Amendment.

First:—"Proposed amendment by initiative petition to the constitution of Missouri, submitting to the legal voters of the state of Missouri for their approval or rejection at the general election to be held on Tuesday next following the first Monday in November, 1912, by adding new sections relating to revenue and taxation to Article X.

"Be it enacted by the people of the state of Missouri as follows:

"Section 1.—All property now subject to taxation shall be classified for purposes of taxation and for exemption from taxation as follows:

Class 1.—Shall include ALL PERSONAL PROPERTY, all bonds and public securities of the state, and of the political subdivisions and municipalities thereof, now or hereafter issued, SHALL BE EXEMPT FROM ALL TAXES, state and local, from and after the adoption of this amendment; and ALL OTHER PERSONAL PROPERTY SHALL BE EXEMPT FROM ALL TAXES, state and local, IN THE YEAR 1914 AND THEREAFTER; provided that nothing in this amendment shall be construed as limiting or denying the power of the state to tax any form of franchise, privilege or inheritance.

"Class 2.—Shall include all improvements in or on lands, except improvements in or on lands now exempt from taxation by law, in the year 1913-15 ALL PROPERTY IN CLASS 2 SHALL BE EXEMPT FROM ALL TAXES, state and local, to the extent of one-fourth of the assessed value of such property; in the years 1916 and 1917 to the extent of two-fourths; in the years 1918 and 1919 to the extent of three-fourths, and in the year 1920 and thereafter ALL PROPERTY IN CLASS 2 SHALL BE EXEMPT FROM ALL TAXES, state and local; provided however, that in the year 1914 and thereafter, the improvements to the extent of \$3,000 in assessed value on the homestead of every householder or head of a family shall be exempt from all taxes, state and local.

"Class 3.—Shall include all lands in the state, independent of all improvements thereon or therein, except lands now exempt from taxation by law, and shall also include all franchises for public service utilities, and NO PROPERTY IN CLASS 3 SHALL EVER BE EXEMPT FROM TAXATION.

"Section 2.—ALL PROPERTY SUBJECT TO TAXATION IN THIS STATE SHALL BE ASSESSED FOR TAXES AT ITS TRUE AND ACTUAL VALUE.

"Section 3.—NO POLL TAX SHALL BE LEVIED or collected in Missouri, nor shall any tax whatever be levied or imposed on any person, firm, merchant, manufacturer, trade, labor, business, occupation or profession, under the form or pretext of a license for revenue after December 31, 1913, but nothing herein shall be construed as affecting the licensing of any business, occupation, profession, place or thing, in the interest of the public peace, health or safety; and nothing therein contained shall be construed as changing present laws governing the manufacture and sale of fermented vinous and spirituous liquors.

"Section 4.—The existing constitutional LIMITATIONS UPON THE RATES OF TAXATION for the state, county, school and municipal purposes SHALL HAVE NO FORCE AND

EFFECT AFTER JANUARY 1ST, 1914.

"Section 5.—The general assembly shall provide the legislation necessary to secure full and effective compliance with the purposes and intent of this amendment. Nothing in this amendment shall be construed to limit the initiative and referendum powers reserved by the people."

Tax Commission Amendment.

The Tax Commission Amendment is as follows, and is the side-partner and the other Gold Dust Twin Amendment by which the Single Tax can do its worst (without this Tax Commission Amendment the Single Tax would be left without a leg to stand on):

"Proposed amendment, by initiative petition, to the state constitution of Missouri, submitting to the legal voters of the state for their approval to be held on the Tuesday next following the first Monday in November, 1912, repealing section 18 of Article 10 of the constitution of the state of Missouri, and enacted in lieu thereof a new section to be known as Section 18, creating a state tax commission.

"Be it enacted by the people of the state of Missouri as follows:

Section 18.—The present State Board of Equalization shall be abolished on January 31, 1913, and in its stead A STATE TAX COMMISSION of three members is hereby created, TO BE APPOINTED BY THE GOVERNOR, who shall in the beginning appoint one member for two years, one member for three years and one member for four years, and all subsequent regular appointments shall be for terms of four years and until their successors are appointed and qualified. The terms of those appointed shall begin February 12, 1913, and THE SALARY SHALL NOT BE LESS THAN \$3600 per year each. NO member shall at the same time hold any other state, federal or government position or office, elective or appointive. It shall be the duty of said commission to see that the laws concerning the assessment of property and the levy and collection of taxes are faithfully enforced, to adjust and equalize the valuation of all property among the several counties and the city of St. Louis, and to perform such other duties as may be prescribed by law.

"The general assembly shall provide the legislation necessary to secure full and effective compliance with the purpose and intent of this amendment. Nothing in this amendment shall be construed to limit the initiative and referendum powers reserved by the people."

Played a Joke on Tom Logan.

A party of Parnell men composed of Wallace Kennedy, W. N. Morgan, Earl Addy, Wm. Killion, John Bodecker, Charles Evans are having quite a bit of fun over a joke they played on Tom Logan of that city. Mr. Logan had some wool which had been contracted for by James Herndon of this city. The boys learned of this and decided that they would shear several dogs and put the hair in with the wool. So they did and they put Mr. Herndon wise so that he would insist that the wool be examined before he would buy it. It was examined before Mr. Logan, and to his surprise, the dog hair was found. Mr. Logan had always prided himself for his honesty and the joke was all the more greatly enjoyed.

TO GO TO ST. JOSEPH.

First Sociability Run Will Be Made Sunday By Maryville Auto Club.

The first sociability run of the Maryville automobile club will be to St. Joseph instead of to Tarkio as first planned. The change was made on account that the Walnut Inn hotel of Tarkio could not accommodate the Maryville party at dinner as the manager of the hotel did not have the help so he stated to W. J. Staples of this city.

The Maryville party, which will probably be composed of twenty-five automobiles, will leave the city at 8 o'clock Sunday morning. W. J. Staples will pilot the party to St. Joseph and dinner will be taken at the Robidoux hotel. The return trip will be made in the evening, the party leaving that city at 4 o'clock.

The soil contains two general classes of bacteria or "germs" which are very important for the farmer. There are some which fix the gas nitrogen from the air to a solid form in the soil. These are extremely important to every crop. The other general class includes those which change the nutrients already in the soil into a form that the plants can use. One of the biggest reasons for thorough cultivation of the soil, according to Professor M. F. Miller of the College of Agriculture of Missouri, is that it supplies air and warmth and moisture to these bacteria so that they do their work of preparing the needed fertility for the crops.

W. F. M. S. Meeting Wednesday.

The Women's Foreign Missionary Society of the M. E. Church, South, was entertained Wednesday afternoon at the home of Mrs. Henry K. Taylor. The devotional services were conducted by Mrs. W. J. Parvin. Owing to the absence of a number on the program, the subject assigned, "The Scarritt Training School of Kansas City," was dispensed with until the next meeting. A very interesting meeting was enjoyed, however. Mrs. J. H. Thorp gave report of the Annual Missouri Missionary Conference held at Mexico recently, to which she was sent as a delegate by the society, and told of the work being done throughout the state. Ways and means were discussed for fulfilling the society's pledge to support a missionary in China, also the advisability of holding an all-day session when the quarterly missionary tea is held. The district secretary will be present at this meeting. The hostess, assisted by her daughter, Miss Emma Lee Taylor, served refreshments during the social hour.

HURT FIFTEEN TO SAVE A LIFE

One Spectator Killed by Aviator's Sudden Move.

TRIED TO AVOID TRESPASSER

Seattle Meet Called Off Immediately After Accident—Many in Grand Stand Seriously Injured.

Seattle, Wash., May 31.—Rather than kill a man who rushed in front of his aeroplane here, J. Clifford Turpin turned into the grandstand. His impulse to save the stranger from certain death resulted in the death of a man in a box and the injury of 15 others, six of them women.

Turpin's machine was skimming the ground, just ready to rise. As he sailed down the field at the meadows 50 miles an hour, a man rushed across the track. He would have been beheaded in another instant.

The aviator tilted the right wing in order to miss the man, and attempted to rise. He was unable to right the machine in time and it swerved into the crowd.

Wing Caught on Boxes.

The tier of boxes caught the wing and the machine, with its heavy engine, fell upon the crowd. The injured were conveyed to the county hospital in motor cars.

The man who was killed was identified at the morgue as George Quinby, 25 years old, a civil engineer, whose home was in Galesburg, Ill. It was not until a friend recognized a ring and the laundry mark on his clothing that his name was known. Quinby also was a wireless operator and had just returned from Alaska on the steamship Bertha.

List of Injured.

The list of injured includes:

Raymond Chapman, 10 years old, fractured skull.
Thomas Chapman, Seattle, father of Raymond Chapman; cut about head.

Mrs. S. C. Hoover, Seattle, a leg broken, internal injuries.
Mrs. E. R. Lang, Seattle, left hand crushed, necessitating amputation.

Many others suffered slight bruises and cuts, but were able to go to their homes unattended.

The meet was declared off immediately after the accident.

Turpin was cut over the left eye and was unconscious for several minutes. He is not injured severely.

Fallen Aviator Arrested.

Chicago, May 31.—Max Lillie, flying from Cicero field to the Columbia Yacht club, where the first boat races of the season were being held, and carrying Commodore James A. Pugh of the yacht club as a passenger, was compelled to alight suddenly in Grant park. He and Commodore Pugh were bruised when the aeroplane reached the ground.

A policeman arrested Lillie for alighting in a public park in violation of a city ordinance.

TO STOP "BLUE SKY" LAND SALES

Government Will Take Steps to Check Fake Concerns Selling Canadian Farms.

Chicago, May 31.—F. H. Newell, director of the reclamation service, has summoned representatives of Western railroads, state land commissioners and reclamation agents to meet here to take up the question of "blue sky" land investments. It is said the federal government is considering a movement for their suppression.

The prime purpose is to build up the "new West." Because better inducements are offered in western Canada without actual conditions being better, the government is said to have recognized that something must be done to stop the removal of approximately 100,000 families a year from the United States.

The continued exposure of "fake" land companies, which it is said, have lured investors out of large sums by inducing them to buy land which is worthless, or to which they have no more title than to a claim on the blue sky, is blamed for the large emigration to Canada. From this is taken the nickname of the law which Kansas passed to outlaw such concerns.

Sedalia, Mo., May 31.—Women's day at Elk Lick Springs, Saline county, where the annual meeting of the Central Missouri Fox and Wolf Hunters' association was being held drew nearly 1,200 persons to the grounds. Missouri, Iowa, Illinois, Indiana and Kansas are represented at the meet.

A MEMORY OF THE PAST

AUTOMOBILE RECORDS BROKEN

JOE DAWSON WINS GREAT RACE AT INDIANAPOLIS.

All Track Records From 50 Miles Up Were Broken—Spectacular Finish to \$20,000 Event.

Indianapolis, May 31.—Sweeping to victory at the most terrific pace ever maintained by a racing automobile in a long distance drive in America, Joe Dawson crossed the tape first in his National car, winner in the free for all 500-mile race over the motor speedway track. Dashing madly behind him came the other cars that had been able to bear up under the terrific pace that left every record from 50 miles and up shattered, while the new victor earned more records than were ever won in a single race before. Tetzlaff, in a Fiat, was second; Hughey Hughes, third, Mercer; and Roy Mertz, fourth, Stutz.

The prizes—First, \$20,000; second, \$10,000; third, \$5,000; fourth, \$3,000; fifth, \$2,500; sixth, \$2,000; seventh, \$1,500; eighth, \$1,400; ninth, \$1,300; tenth, \$1,200; eleventh, \$1,100; twelfth, \$1,000.

The average time of the winner was 78.72 miles and hour.

The finish was spectacular in the extreme. DePalma, who had led without mishap all day started a sprint for the finish. Tetzlaff and Dawson started out to overtake the leader. Within three laps of the finish DePalma's engine began to buck.

With victory and a \$20,000 prize fairly in his grasp, he leaped from the car and began desperately to work with his engine. It was useless. Dawson swept by again, making up the second lap the leader had held.

Then DePalma, desperate, went behind the machine and with a determination that brought the hundred thousand spectators cheering to their feet, endeavored to push the heavy racing machine around the track for a single lap, in order that he might finish and win one of the prizes, but failed.

SKIFF UPSET, DROWNING FOUR

Party of Hannibal People Met Death at Start of Fishing Trip.

Hannibal, Mo., May 31.—O. T. Kirtley, proprietor of a printing office here, his wife and four-year-old daughter, and Crandall King, a graduate of this year's senior class of the Hannibal high school, were drowned at 6:30 in the morning when a skiff in which they were riding was drawn by the current under some barges anchored at the levee. They were starting to row across the Mississippi river to spend the day fishing. Crandall King, the youth who was drowned, had earned his way through high school as an employee of Mr. Kirtley's printing office.

CARDINAL A SWINDLER'S VICTIM

Merry del Val Induced to Invest in Visionary Schemes by Alleged Partner of Rockefeller.

Rome, May 31.—The Giornale di Italia says, in addition to swindling Cardinal Merry del Val out of 50,000 lire for investment in great oil fields he and his partner, John D. Rockefeller, were developing, Count Orsi, under arrest for swindling leaders of the Roman nobility, also induced the cardinal to invest 50,000 lire additional for the construction of a magnificent hotel for pilgrims visiting the pope.

Army Balloon Sailed 80 Miles.

Omaha, May 31.—Balloon No. 11 of the war department, which ascended at Fort Omaha for a short flight, landed safely near Burlington Junction, Mo., about 80 miles from the place of ascent. The balloon was piloted by W. S. Assman of St. Louis, and carried Karl Truesdall, C. A. Dravo, Alfred Bowen and D. R. Roscoe, all lieutenants in the signal corps.

Forest Fires Still Burn.

Dawson, Y. T., May 31.—The forest fires are still burning north and south of Dawson and all standing timber has been destroyed. Hundreds of square miles are barren and thousands of cords of wood piled along the river bank for use of the boats and the mining camps have been burned.

WABASH EMPLOYS A "WATER DOCTOR"

Newly Appointed Official Will See That The Wabash Locomotives Drink Nothing But "Pure" Water.

"He has a stomach of iron" can no longer mean that a man may eat anything without fear of indigestion; for it seems that even stomachs of iron are thus afflicted.

Mr. W. A. Pownall, the newly appointed Water Inspector of the Wabash, says that locomotives have persistent attacks of "dyspepsia," and it is costing the railroads so much money that it has been put up to Mr. Pownall to work a "cure."

It seems that all waters have more or less of two kinds of mineral salts—"incrusting salts" and "alkali salts," as Mr. Pownall terms them. These salts clog up the boiler very quickly and make it necessary to have the boiler "blown off" frequently, and now and then even taken out of service and washed. Both the blow-outs and the lay-offs mean a loss of money—the amount of which the railroads have now figured almost exactly.

By the liberal use of soda ash, through certain chemical processes, these "salts" can be practically elimi-

nated from the water. However, as the waters vary at different points, the treatment must also vary; but the Wabash purposes to have the water at every point "cured" so that it will be exactly suited to locomotive consumption.

The cost of the treatment is about \$17 per engine per year; but it is estimated that the saving on each engine because of the use of "cured" water will amount to over \$400 per year. When it is realized that the Wabash has several hundred engines in service, it can be seen that a "water doctor" is a mighty handy official to have around; also a good investment.

Not only will the Wabash be benefited by the study of the local water conditions over its entire system, but industrial plants along the Wabash lines will be able to take advantage of Mr. Pownall's researches and thereby save themselves thousands of dollars annually in wear and tear to their equipment.

MOTORS FOR KANSAS VETERANS

Ranks of Civil War Survivors Rapidly Thinning Out—New York Parade Had 200 Less Than Last Memorial Day.

Gettysburg, Pa., May 31.—"We should consecrate ourselves anew toward trying practically to apply to the issues of today the spirit of lofty idealism and homely common sense in which Abraham Lincoln worked," Col. Roosevelt said in his speech in the National cemetery here. He also spoke before the Brotherhood of Locomotive Engineers. No reference was made to politics.

Roosevelt was met at the station by Warren S. Stone, grand chief of the Brotherhood of Locomotive Engineers, who accompanied him over the battlefield. Later he attended a luncheon given by the engineers in a great tent, and made a short speech on the spot where Lincoln made his famous address 49 years ago.

Taft at Arlington.

Washington, May 31.—Official and civic Washington paid tribute to the dead defenders of the nation. Congress adjourned, 35,000 government clerks were excused and all federal activities ceased.

At Arlington National cemetery, the principal exercises of the day were held. President Taft and Senator Smith of Michigan delivered memorial orations to an immense crowd in the amphitheater, omitting all mention of politics. Dozens of new graves in the "Spanish war" section of the cemetery were given especial attention. Those of the Maine's sailors, recently brought from Havana, were covered with flowers.

All Kansas Celebrates.

Topeka, May 31.—All Kansas celebrated Memorial day. Under the Kansas law all business houses must close throughout the day and no sports of any kind can be indulged in. The abundance of flowers throughout the state and the perfect day made the burial grounds of the state unusually beautiful.

In the larger towns of the state there were memorial parades and memorial services were held in even the smallest hamlets. In practically every town the soldiers were conveyed in automobiles.

Only 800 Veterans in Line.

New York, May 31.—There was a noticeable thinning of the ranks of the G. A. R. in the memorial parade, the 800 veterans in line being more than 200 less than on last Memorial day.

WILBUR WRIGHT SUCCUMBS TO TYPHOID FEVER.

Man Who Invented and Perfected Flying Machine Passes Peacefully Away.

Dayton, O., May 31.—Wilbur Wright aged 45 years, the man, who, with his brother, Orville, invented and perfected the first successful heavier-than-air flying machine, succumbed to typhoid fever here, after a battle for life that lasted for weeks.

The end came after one of the most remarkable struggles against the disease that physicians have ever known.

WILBUR WRIGHT.

Mr. Wright was seized with typhoid May 4, while on a business trip in the East. On that day he returned to Dayton from Boston and consulted a physician. He took to his bed almost immediately and it was several days before his case was definitely diagnosed as typhoid.

He grew worse rapidly and his condition became critical within a short time after he had been attacked by the malady. Wright rallied after the first sinking spell and his wonderful vitality made the physicians hope that he might recover.

The entire family was in the room when the aviator passed peacefully away.

Orville Wright, the brother was overcome. Their sister Katherine, who helped the brothers when they were struggling with their invention and who shared their triumphal European trip after the success of their machines had been demonstrated, though overcome herself, strove to comfort Orville. Wright's mother is dead.

TO PAY PENSIONS BY CHECKS

Congress Passes Bill Increasing Appropriation Over Amount Provided by House.

Washington, May 31.—Congress celebrated Decoration day by passing the annual pension appropriation bill after 15 minutes consideration. The measure increased by \$13,000,000 the amount appropriated by the house.

The bill retained the present 18 pension agencies, distributed throughout the country and also provided for the payment of pensions by checks to the veterans instead of by vouchers.

Washington Has \$10,000 Fire.

Washington, May 31.—Awakened by wild screams, noted public men in scant attire, turned out of bed shortly before 2 o'clock a. m. and watched flames sweep through the residence of Senator Brandegee and cause ruin to the extent of about \$10,000 while enough fire apparatus to curb the progress of a conflagration hovered about the army and navy club, two blocks away looking for a blaze.

THE CASE WAS AFFIRMED.

Supreme Court Gave Decision Friday in Walker vs. Bohannon Case.

The supreme court Friday affirmed the decision of the circuit court here in the case of Martha E. Walker, et al vs. Wm. T. Bohannon which was tried in the circuit court at the June term, 1909. A telegram to that effect was received Friday afternoon by Attorney W. A. Blagg, one of the attorneys.

The case has been in the Supreme court since June 1909. The petition on file in the circuit clerk's office states that T. C. Bohannon was the owner of 40 acres of land near Skidmore and that he promised Martha E. Walker and Myrtle E. Mast, granddaughters, that if they would take care and live with him, he would give them the land. They did take care of him, and after his death, brought suit in the circuit court here for the specific enforcement of their contract. The case was presented before Judge Ellison and he gave a decision for the defendant. An appeal was taken to the Supreme court, they affirming the lower court's decision.

Shinabargar, Blagg & Ellison were the attorneys for the defendant, and John Dawson and A. F. Harvey for the plaintiffs.

DAILY DEMOCRAT FORUM

(Successor to the Maryville Republican)

VOLUME 2.

MARYVILLE, MISSOURI, FRIDAY, MAY 31, 1912.

NO. 311.

TIME GROWS SHORT

CANDIDATES FOR OFFICE MUST FILE DECLARATIONS SOON.

OFFICES GOING BEGGING

Several Places on Both Democratic and Republican Tickets for Which There Are No Aspirants.

There would be candidates must hurry if he expects to get on the primary election ticket and in order to do so, he must declare his intention and file the same with County Clerk George Demott sixty days before the date of the primary, which will be the 6th day of June.

There are a few offices on the Democratic and Republican tickets for which there are no candidates.

On the Democratic ticket, no candidate has filed for surveyor and coroner, but it is expected that County Highway Engineer Joseph Reece will be a candidate for surveyor. There seems to be no candidate on that party ticket for coroner.

On the Republican ticket, no one has filed for State senator from this district, for representative, for judge of the north district, for surveyor, for public administrator or for coroner. For representative on this ticket, there is some talk that Herman W. Hull will again seek the place. Geo. S. Miller will probably run again for surveyor. For the other offices no one seems to be mentioned.

The following are the candidates that have filed with County Clerk Demott on the Democratic ticket:

Representative—W. B. Gex of Hughes.
Judge South District—M. C. Noland of Washington, and Tom Groves of Hughes.
Judge North District—Judge Wm. Blackford of Atchison.

Prosecuting Attorney—George Pat Wright.
County Treasurer—S. H. Williams, E. L. Wolfert, Amos Sprecher, H. H. McClurg and Jesse Joy.

Sheriff—Ed Wallace, Luke Colvin and Dudley Rice.
Public Administrator—J. F. Roelofson.

W. N. Morgan of Parnell is being mentioned by his friends as a candidate for representative on the Democratic ticket as is also Samuel Haywood of Hughes mentioned for judge of the county court from the south district on the Democratic ticket.

On the Republican side, the following have filed:

Judge South District—Pleasant Schmidt of Hughes.
Prosecuting Attorney—W. E. Wiles.
Treasurer—Sheriff W. R. Tilson.
Sheriff—Martin Borrusch, Frank P. Reuillard, John Wallace and George Evans.

The office of representative is the one that is of vital interest to the people and the one that is more talked about than all others. It is generally conceded that there will be a strong effort to pass a "county unit" local option bill by the next legislature whereby the voters of a whole county can vote on the question of granting liquor license anywhere in the county. In the two last legislatures the house passed a bill of that kind, but it was lost in the senate. In the last general assembly it was defeated in the senate by the lieutenant governor sending it to a committee that was opposed to the measure, which held it up. Had it ever come to a vote it would have carried.

Returned from Omaha.

His brother was taken of the same disease at the time of his death and has not yet recovered.

Miss Vera Saylor of Creston, Ia., came to Maryville Thursday evening for a visit with her parents, Judge and Mrs. J. H. Saylor.

TRAPPED FOR TWO WEEKS.

Runaway Gallatin Couple Apprehended After a Fortnight of Wandering—The Wife Forgiven.

The Gallatin man and woman who set out to take a honeymoon trip afoot on the Wabash, were found at Burlington Junction Wednesday night by the irate husband of the woman, who met them on Main street in that town. A stormy scene followed and Marshall Thacker of that town put an end to the trouble by lodging Adolphus Whit, who was with the man's wife, in the calaboose and the constable of Gallatin came Thursday evening and took him back to Gallatin.

Mrs. P. E. Croy is the woman in the case according to a story that Whit told the Burlington Junction Post, it all came about in this way:

Whit had been working on the Croy farm six miles south of Gallatin for some time, Mr. and Mrs. Croy's domestic life had not been the most tranquil and Saturday morning, May 16, they quarreled. Mrs. Croy decided to take up her abode elsewhere and started across the fields to town. Of course Whit could not see her off alone and he followed, overtaking her near town.

Then began almost two weeks of wandering about the country, the couple travelling afoot. They had been in this locality but a short time when in some way it seems that the irate husband got word of their whereabouts. He boarded the train at Gallatin and met the couple at Burlington Junction. Mrs. Croy and her husband made up and went back to Gallatin.

ELECTION IN UNION TOWNSHIP.

Will Vote on a \$15,000 Bond Issue for Good Roads Looks Favorable.

Union township will vote Saturday on a bond issue of \$15,000 to spend for roads in that township. The result of the election will be watched closely as this is the first township in the county that has voted on the proposition and should it carry, probably other townships will have bond issue to vote on.

The report from Pickering is that the issue looks very favorable and so far, there does not seem to be a very strong opposition. The voting place is at Pickering and the polls will open at 7 o'clock in the morning and close at 6 o'clock in the evening. The judges and clerks of the election are: Wm. Chambers, James Hanna, Charles Coleman, H. H. McClurg, Irvin Lock, S. C. Leech.

ACCUSED OF STEALING A WATCH

John Simons, Who Took Brass Off Of Automobile at Parnell, Now Accused of Another Crime.

John Simons who is in the county jail charged with taking brass off the John Cooper automobile at Parnell, a few weeks ago, will probably be charged with another crime, that of stealing. A 15-jewel, gold case Waltham watch was taken from Simons by Sheriff Tilson, and now there appears a Sheridan man who says that his Waltham watch has disappeared. Simons was at Sheridan a day or so before he was at Parnell, or about the time the Sheridan man lost his watch. The Sheridan man will come to Maryville to see if it is his watch.

SINGLE TAX ON LAND

REVOLUTIONARY MEASURE PROPOSED FOR ADOPTION.

CUTS OUT THE POLL TAX

Idea Is To Make Real Estate Bear the Entire Burden of Taxation, Exempting Personal Property.

An amendment to the state constitution which is to be submitted to the voters in November under the initiative and referendum is of more than usual interest and importance to the farmers. The purpose of it is to completely revolutionize the method of taxation in this state, and it is already creating much discussion and meeting with determined opposition. It will unquestionably have a "rocky road to travel" and is likely to carry measures of more merit down to defeat with it.

Below will be found the complete text of the amendment which is known as the Single Tax Amendment and its twin, the Tax Commission Amendment.

The Single Tax Amendment.

First:—"Proposed amendment by initiative petition to the constitution of Missouri, submitting to the legal voters of the state of Missouri for their approval or rejection at the general election to be held on Tuesday next following the first Monday in November, 1912, by adding new sections relating to revenue and taxation to Article X.

"Be it enacted by the people of the state of Missouri as follows:

"Section 1.—All property now subject to taxation shall be classified for purposes of taxation and for exemption from taxation as follows:

Class 1.—Shall include ALL PERSONAL PROPERTY, all bonds and public securities of the state, and of the political subdivisions and municipalities thereof, now or hereafter issued, SHALL BE EXEMPT FROM ALL TAXES, STATE AND LOCAL, FROM AND AFTER THE ADOPTION OF THIS AMENDMENT; and ALL OTHER PERSONAL PROPERTY SHALL BE EXEMPT FROM ALL TAXES, STATE AND LOCAL, IN THE YEAR 1914 AND THEREAFTER; provided that nothing in this amendment shall be construed as limiting or denying the power of the state to tax any form of franchise, privilege or inheritance.

"Class 2.—Shall include all improvements in or on lands, except improvements in or on lands now exempt from taxation by law, in the year 1913-15 ALL PROPERTY IN CLASS 2 SHALL BE EXEMPT FROM ALL TAXES, STATE AND LOCAL, to the extent of one-fourth of the assessed value of such property; in the years 1916 and 1917 to the extent of two-fourths; in the years 1918 and 1919 to the extent of three-fourths, and in the year 1920 and thereafter ALL PROPERTY IN CLASS 2 SHALL BE EXEMPT FROM ALL TAXES, STATE AND LOCAL; provided however, that in the year 1914 and thereafter, the improvements to the extent of \$3,000 in assessed value on the homestead of every householder or head of a family shall be exempt from all taxes, state and local.

"Class 3.—Shall include all lands in the state, independent of all improvements thereon or therein, except lands now exempt from taxation by law, and shall also include all franchises for public service utilities, and NO PROPERTY IN CLASS 3 SHALL EVER BE EXEMPT FROM TAXATION.

"Section 2.—ALL PROPERTY SUBJECT TO TAXATION IN THIS STATE SHALL BE ASSESSED FOR TAXES AT ITS TRUE AND ACTUAL VALUE.

"Section 3.—NO POLL TAX SHALL BE LEVIED or collected in Missouri, nor shall any tax whatever be levied or imposed on any person, firm, merchant, manufacturer, trade, labor, business, occupation or profession, under the form or pretext of a license for revenue after December 31, 1913, but nothing herein shall be construed as affecting the licensing of any business occupation, profession, place or thing, in the interest of the public peace, health or safety; and nothing therein contained shall be construed as changing present laws governing the manufacture and sale of fermented vinuous and spirituous liquors.

"Section 4.—The existing constitutional LIMITATIONS UPON THE RATES OF TAXATION for the state, county, school and municipal purposes SHALL HAVE NO FORCE AND

EFFECT AFTER JANUARY 1ST, 1914.

"Section 5.—The general assembly shall provide the legislation necessary to secure full and effective compliance with the purposes and intent of this amendment. Nothing in this amendment shall be construed to limit the initiative and referendum powers reserved by the people."

Tax Commission Amendment.

The Tax Commission Amendment is as follows, and is the side-partner and the other Gold Dust Twin Amendment by which the Single Tax can do its worst (without this Tax Commission Amendment the Single Tax would be left without a leg to stand on):

"Proposed amendment, by initiative petition, to the state constitution of Missouri, submitting to the legal voters of the state for their approval to be held at the general election to be held on the Tuesday next following the first Monday in November, 1912, repealing section 18 of Article 10 of the constitution of the state of Missouri, and enacted in lieu thereof a new section to be known as Section 18, creating a state tax commission.

"Be it enacted by the people of the state of Missouri as follows:

Section 18.—The present State Board of Equalization shall be abolished on January 31, 1913, and in its stead A STATE TAX COMMISSION of three members is hereby created, TO BE APPOINTED BY THE GOVERNOR, who shall in the beginning appoint one member for two years, one member for three years and one member for four years, and all subsequent regular appointments shall be for terms of four years and until their successors are appointed and qualified. The terms of those appointed shall begin February 13, 1913, and THE SALARY SHALL NOT BE LESS THAN \$3600 per year each. NO member shall at the same time hold any other state, federal or government position or office, elective or appointive. It shall be the duty of said commission to see that the laws concerning the assessment of property and the levy and collection of taxes are faithfully enforced, to adjust and equalize the valuation of all property among the several counties and the city of St. Louis, and to perform such other duties as may be prescribed by law.

"The general assembly shall provide the legislation necessary to secure full and effective compliance with the purpose and intent of this amendment. Nothing in this amendment shall be construed to limit the initiative and referendum powers reserved by the people."

Mr. Parker is a half brother of Mrs. Hagins.

Played a Joke on Tom Logan.

A party of Parnell men composed of Wallace Kennedy, W. N. Morgan, Earl Addy, Wm. Killion, John Bodecker, Charles Evans are having quite a bit of fun over a joke they played on Tom Logan of that city. Mr. Logan had some wool which had been contracted for by James Herndon of this city. The boys learned of this and decided that they would shear several dogs and put the hair in with the wool. So they did and they put Mr. Herndon wise so that he would insist that the wool be examined before he would buy it. It was examined before Mr. Logan, and to his surprise, the dog hair was found. Mr. Logan had always prided himself for his honesty and the joke was all the more greatly enjoyed.

TO GO TO ST. JOSEPH.

First Sociability Run Will Be Made Sunday By Maryville Auto Club.

The first sociability run of the Maryville automobile club will be to St. Joseph instead of to Tarkio as first planned. The change was made on account that the Walnut Inn hotel of Tarkio could not accommodate the Maryville party at dinner as the manager of the hotel did not have the help so he stated to W. J. Staples of this city.

The Maryville party, which will probably be composed of twenty-five automobiles, will leave the city at 8 o'clock Sunday morning. W. J. Staples will pilot the party to St. Joseph and dinner will be taken at the Robidoux hotel. The return trip will be made in the evening, the party leaving that city at 4 o'clock.

Miss Eula Woodward, living north of Maryville, is visiting with Miss Blanche Frazee.

The soil contains two general classes of bacteria or "germs" which are very important for the farmer. There are some which fix the gas nitrogen from the air to a solid form in the soil. These are extremely important to every crop. The other general class includes those which change the nutrients already in the soil into a form that the plants can use. One of the biggest reasons for thorough cultivation of the soil, according to Professor M. F. Miller of the College of Agriculture of Missouri, is that it supplies air and warmth and moisture to these bacteria so that they do their work of preparing the needed fertility for the crops.

HURT FIFTEEN TO SAVE A LIFE

One Spectator Killed by Aviator's Sudden Move.

TRIED TO AVOID TRESPASSER

Seattle Meet Called Off Immediately After Accident—Many in Grand Stand Seriously Injured.

Seattle, Wash., May 31.—Rather than kill a man who rushed in front of his aeroplane here, J. Clifford Turpin turned into the grandstand. His impulse to save the stranger from certain death resulted in the death of a man in a box and the injury of 15 others, six of them women.

Turpin's machine was skimming the ground, just ready to rise. As he sailed down the field at the meadows 50 miles an hour, a man rushed across the track. He would have been headed in another instant.

The aviator tilted the right wing in order to miss the man, and attempted to rise. He was unable to right the machine in time and it swerved into the crowd.

Wing Caught on Boxes.

The tier of boxes caught the wing and the machine, with its heavy engine, fell upon the crowd. The injured were conveyed to the county hospital in motor cars.

The man who was killed was identified at the morgue as George Quinby, 25 years old, a civil engineer, whose home was in Galesburg, Ill. It was not until a friend recognized a ring and the laundry mark on his clothing that his name was known. Quinby also was a wireless operator and had just returned from Alaska on the steamship Bertha.

List of Injured.

The list of injured includes:

Raymond Chapman, 10 years old, fractured skull.

Thomas Chapman, Seattle, father of Raymond Chapman; cut about head.

Mrs. S. C. Hoover, Seattle, a leg broken, internal injuries.

Mrs. E. R. Lang, Seattle, left hand crushed, necessitating amputation.

Many others suffered slight bruises and cuts, but were able to go to their homes unattended.

The meet was declared off immediately after the accident.

Turpin was cut over the left eye and was unconscious for several minutes. He is not injured severely.

Fallen Aviator Arrested.

Chicago, May 31.—Max Lillie, flying from Cicero field to the Columbia Yacht club, where the first boat races of the season were being held, and carrying Commodore James A. Pugh of the yacht club as a passenger, was compelled to alight suddenly in Grant park. He and Commodore Pugh were bruised when the aeroplane reached the ground.

A policeman arrested Lillie for alighting in a public park in violation of a city ordinance.

TO STOP "BLUE SKY" LAND SALES

Government Will Take Steps to Check Fake Concerns Selling Canadian Farms.

Chicago, May 31.—F. H. Newell, director of the reclamation service, has summoned representatives of Western railroads, state land commissioners and reclamation agents to meet here to take up the question of "blue sky" land investments. It is said the federal government is considering a movement for their suppression.

The prime purpose is to build up the "new West." Because better inducements are offered in western Canada without actual conditions being better, the government is said to have recognized that something must be done to stop the removal of approximately 100,000 families a year from the United States.

The continued exposure of "fake" land companies, which it is said, have lured investors out of large sums by inducing them to buy land which is worthless, or to which they have no more title than to a claim on the blue sky, is blamed for the large emigration to Canada. From this is taken the nickname of the law which Kansas passed to outlaw such concerns.

BIG CROWD ATTENDS FOX HUNT

Women's Day at Elk Lick Springs, Missouri, Brought Out Nearly Twelve Hundred.

Sedalia, Mo., May 31.—Women's day at Elk Lick Springs, Saline county, where the annual meeting of the Central Missouri Fox and Wolf Hunters' association was being held drew nearly 1,200 persons to the grounds. There was a chase, four foxes being run, but all escaped. A number of women participated in the chase. The race for the silver cup was not decided until after the chase. Missouri, Iowa, Illinois, Indiana and Kansas are represented at the meet.

Arizona Wants Clark.

Phoenix, Ariz., May 31.—About 6,000 votes were cast in the Democratic state presidential preference primary and according to returns tabulated Clark obtain 90 per cent of the total. Wilson polled only a few hundred.

A MEMORY OF THE PAST

AUTOMOBILE RECORDS BROKEN

JOE DAWSON WINS GREAT RACE AT INDIANAPOLIS.

All Track Records From 50 Miles Up Were Broken—Spectacular Finish to \$20,000 Event.

Indianapolis, May 31.—Sweeping to victory at the most terrific pace ever maintained by a racing automobile in a long distance drive in America, Joe Dawson crossed the tape first in his National car, winner in the free for all 500-mile race over the motor speedway track. Dashing madly behind him came the other cars that had been able to bear up under the terrific pace that left every record from 50 miles and up shattered, while the new victor earned more records than were ever won in a single race before. Tetzlaff, in a Fiat, was second; Hughey Hughes, third, Mercer; and Roy Mertz, fourth, Stutz.

The prizes—First, \$20,000; second, \$10,000; third, \$5,000; fourth, \$3,000; fifth, \$2,500; sixth, \$2,000; seventh, \$1,500; eighth, \$1,400; ninth, \$1,300; tenth, \$1,200; eleventh, \$1,100; twelfth, \$1,000.

The average time of the winner was 78.72 miles and hour.

The finish was spectacular in the extreme. DePalma, who had led without mishap all day started a sprint for the finish. Tetzlaff and Dawson started out to overtake the leader. Within three laps of the finish DePalma's engine began to buck.

With victory and a \$20,000 prize fairly in his grasp, he leaped from the car and began desperately to work with his engine. It was useless. Dawson swept by again, making up the second lap the leader had held.

Then DePalma, desperate, went behind the machine and with a determination that brought the hundred thousand spectators cheering to their feet, endeavored to push the heavy racing machine around the track for a single lap, in order that he might finish and win one of the prizes, but failed.

WABASH EMPLOYS A "WATER DOCTOR"

Newly Appointed Official Will See That The Wabash Locomotives Drink Nothing But "Pure" Water.

"He has a stomach of iron" can no longer mean that a man may eat anything without fear of indigestion; for it seems that even stomachs of iron are thus afflicted.

Mr. W. A. Pownall, the newly appointed Water Inspector of the Wabash, says that locomotives have persistent attacks of "dyspepsia," and it is costing the railroads so much money that it has been put up to Mr. Pownall to work a "cure."

It seems that all waters have more or less of two kinds of mineral salts—"incrusting salts" and "alkali salts," as Mr. Pownall terms them. These salts clog up the boiler very quickly and make it necessary to have the boiler "blown off" frequently, and now and then even taken out of service and washed. Both the blow-outs and the lay-offs mean a loss of money—the amount of which the railroads have now figured almost exactly.

By the liberal use of soda ash, through certain chemical processes, these "salts" can be practically elim-

nated from the water. However, as the waters vary at different points, the treatment must also vary; but the Wabash purposes to have the water at every point "cured" so that it will be exactly suited to locomotive consumption.

The cost of the treatment is about \$17 per engine per year; but it is estimated that the saving on each engine because of the use of "cured" water will amount to over \$400 per year. When it is realized that the Wabash has several hundred engines in service, it can be seen that a "water doctor" is a mighty handy official to have around; also a good investment.

Not only will the Wabash be benefited by the study of the local water conditions over its entire system, but industrial plants along the Wabash lines will be able to take advantage of Mr. Pownall's researches and thereby save themselves thousands of dollars annually in wear and tear to their equipment.

MOTORS FOR KANSAS VETERANS

Ranks of Civil War Survivors Rapidly Thinning Out—New York Parade Had 200 Less Than Last Memorial Day.

Gettysburg, Pa., May 31.—"We should consecrate ourselves anew toward trying practically to apply to the issues of today the spirit of lofty idealism and homely common sense in which Abraham Lincoln worked," Col. Roosevelt said in his speech in the National cemetery here. He also spoke before the Brotherhood of Locomotive Engineers. No reference was made to politics.

Roosevelt was met at the station by Warren S. Stone, grand chief of the Brotherhood of Locomotive Engineers, who accompanied him over the battle field. Later he attended a luncheon given by the engineers in a great tent, and made a short speech on the spot where Lincoln made his famous address 49 years ago.

Taft at Arlington. Washington, May 31.—Official and civic Washington paid tribute to the dead defenders of the nation. Congress adjourned, 35,000 government clerks were excused and all federal activities ceased.

At Arlington National cemetery, the principal exercises of the day were held. President Taft and Senator Smith of Michigan delivered memorial orations to an immense crowd in the amphitheater, omitting all mention of politics. Dozens of new graves in the "Spanish war" section of the cemetery were given especial attention. Those of the Maine's sailors, recently brought from Havana, were covered with flowers.

All Kansas Celebrates. Topeka, May 31.—All Kansas celebrated Memorial day. Under the Kansas law all business houses must close throughout the day and no sports of any kind can be indulged in. The abundance of flowers throughout the state and the perfect day made the burial grounds of the state unusually beautiful.

In the larger towns of the state there were memorial parades and memorial services were held in even the smallest hamlets. In practically every town the soldiers were conveyed in automobiles.

Only 800 Veterans in Line. New York, May 31.—There was a noticeable thinning of the ranks of the G. A. R. in the memorial parade, the 800 veterans in line being more than 200 less than on last Memorial day.

WORLD'S FIRST AVIATOR DEAD

WILBUR WRIGHT SUCCUMBS TO TYPHOID FEVER.

Man Who Invented and Perfected Flying Machine Passes Peacefully Away.

Dayton, O., May 31.—Wilbur Wright, aged 45 years, the man, who, with his brother, Orville, invented and perfected the first successful heavier-than-air flying machine, succumbed to typhoid fever here, after a battle for life that lasted for weeks.

The end came after one of the most remarkable struggles against the disease that physicians have ever known.

WILBUR WRIGHT.

Mr. Wright was seized with typhoid May 4, while on a business trip in the East. On that day he returned to Dayton from Boston and consulted a physician. He took to his bed almost immediately and it was several days before his case was definitely diagnosed as typhoid.

He grew worse rapidly and his condition became critical within a short time after he had been attacked by the malady. Wright rallied after the first sinking spell and his wonderful vitality made the physicians hope that he might recover.

The entire family was in the room when the aviator passed peacefully away.

Orville Wright, the brother was overcome. Their sister Katherine, who helped the brothers when they were struggling with their invention and who shared their triumphal European trip after the success of their machines had been demonstrated, though overcome herself, strove to comfort Orville. Wright's mother is dead.

The bill retained the present 18 pension agencies, distributed throughout the country and also provided for the payment of pensions by checks to the veterans instead of by vouchers.

Washington Has \$10,000 Fire.

Washington, May 31.—Awakened by wild screams, noted public men in scant attire, turned out of bed shortly before 2 o'clock a. m. and watched flames sweep through the residence of Senator Brandegee and cause ruin to the extent of about \$10,000 while enough fire apparatus to curb the progress of a conflagration hovered about the army and navy club, two blocks away looking for a blaze.

Supreme Court Gave Decision Friday in Walker vs. Bohannon Case.

The supreme court Friday affirmed the decision of the circuit court here in the case of Martha E. Walker, et al vs. Wm. T. Bohannon which was tried in the circuit court at the June term, 1909. A telegram to that effect was received Friday afternoon by Attorney W. A. Blagg, one of the attorneys.

The case has been in the Supreme court since June 1909. The petition on file in the circuit clerk's office states that T. C. Bohannon was the owner of 40 acres of land near Skidmore and that he promised Martha E. Walker and Myrtle E. They did take care of him, and after his death, brought suit in the circuit court here for the specific enforcement of their contract. The case was presented before Judge Ellison and he gave a decision for the defendant. An appeal was taken to the Supreme court, they affirming the lower court's decision.
